

## ACTION ALERT

### **Pro-Homosexual/Drag Queen Hate Crimes Bill Will Move Quickly!**

### **Begins to Lay the Legal Framework Whereby Bible-believing Pastors, Business Owners and Individuals can be Persecuted and Prosecuted.**

---

It is vital that Bible-believing people immediately contact their U.S. Representative and Two (2) U.S. Senators.

We must defeat H.R. 1592, the Local Law Enforcement Hate Crimes Prevention Act of 2007, by Congressman John Conyers, Democrat from Michigan, who is Judiciary Committee Chairman! Also, it is expected that Senator Ted Kennedy, Democrat from Massachusetts, will soon introduce similar legislation in the U.S. Senate.

Without your action, this anti-Christian legislation will pass -- under the guise of hate-crime prevention -- and accomplish the following homosexual goals:

- **Silence the Bible-believing Churches, Pastors and Christians**
- **Criminalize so-called “hate speech,”** – which is any speech that is critical of homosexuality or cross-dressing behaviors. The suppression of free speech will be justified by the claim that such speech “incites” individuals to commit violence against homosexuals, cross-dressers etc. Any remarks about homosexuality, such as reading Bible passages, preaching on these passages, telling a person they can come out of the homosexual lifestyle, etc. will be deemed critical remarks and will be ruled to be outside the bounds of First Amendment protections for pastors, business owners and individuals.
- **Elevate homosexuality and cross-dressing behaviors** such as drag queens, transsexualism, she-males, etc. to the status of federally-protected minorities. These behaviors will be considered equal to race under the federal law.
- **Interfere with local law enforcement** by elevating every alleged incident of “hate” against a homosexual or cross-dresser into a federal crime.
- **Fund anti-Christian curriculum** for children K-12, through the U.S. Departments of Education and Justice to promote homosexuality and cross-dressing as normal behaviors.

The passage of H.R. 1592 will be a serious threat to free speech and freedom of religion. This so-called Hate Crimes Bill begins to lay the legal framework to persecute and prosecute those who refuse, for moral and religious reasons, to agree or teach their children that homosexuality, transgender, cross-dressing etc is normal and desirable.

Ultimately, a pastor’s sermon concerning homosexuality could be considered an incitement to violence and punished with a fine or prison.

*This has already occurred in Sweden, Canada, and England and efforts are underway in Brazil to punish any person who speaks out against homosexuality.*
