VOTE YES on PROP 73!!

Protect California's Daughters & Restore Parent's Rights! VOTE NOV 8th!!

California law today is absurd when it comes to parental notification. A daughter under the age of 18 years of age cannot get an aspirin from the school nurse without their parent's permission. They cannot get a flu shot without their parent's permission. They cannot have their tooth pulled without their parent's permission.

But yet a school official or other unrelated person can arrange for a minor girl to have an abortion without a parent even knowing! These abortions can be performed on girls 13 years old or younger!

Prop 73 will require that at least one parent be notified at least 48 hours prior to a minor girl having an abortion. Parents that are informed can then help their daughter deal with the serious emotional, psychological and physical effects from an abortion. With a parent informed they can provide proper medical history and background of their daughter to a physician before an abortion. Without a parent involved a minor girl is put at risk.

Right now under current law a minor girl as young as 13, 12, 11 or younger can get an abortion without any parent even knowing. **This has led to the cover up of statutory rape and sexual abuse on minor girls.**

A study of over 46,000 pregnant teens found that over two-thirds were impregnated by adult men whose median age was 22.6 years?

Planned Parenthood and their fellow baby killing providers are not concerned about the welfare of underage girls. All they see is green from the money they make from every abortion performed on minor girls. They would rather capitalized financially off of the despair, fear, confusion and pain from unsuspecting minor girls than report sexual crimes against our daughters, sisters, and granddaughters. Informed parents mean fewer abortions on minors. This also means less business for the abortion industry! **Parental notification laws have reduced the abortion and teen pregnancy rates as much as 15% in those states that have such laws.**

Currently more than 30 states have enacted parental notification laws for abortions. In these states there have been substantial reductions in pregnancies and abortions among minors.

The abortion industry is opposed to this common sense initiative. They are opposed because they realize that Prop 73 will result in fewer abortions performed on minor girls. Fewer abortions means less money for them. If abortions were truly “safe” as they claim to be why would they oppose giving parents advance notice?

SUPPORT PARENTAL NOTIFICATION! PROTECT CALIFORNIA’S DAUGHTERS!!VOTE YES ON PROP 73!

FACT: The abortion rate for minors dropped 25.6% in the two years following enactment of a parental involvement law in Virginia.

FACT: California’s Legislative Analyst estimated that Prop 73 could reduce minor’s abortions up to 25% here in the state.

FACT: In California minors can get secret, free abortions at taxpayers expense as often as they want. As a result, abortions on minors in California are the highest in the country.
